

AWS Account Creation Steps

Step 1: Go to aws.amazon.com and create an account

Step 2: Enter your mail, Username password and AWS Account name

AWS Account name can be anything like your 'name' or 'company name'

A screenshot of the 'Create an AWS account' page. The page has a dark blue header with the AWS logo and a language dropdown set to 'English'. The main content area is light gray. On the left, there's a section titled 'AWS Accounts Include 12 Months of Free Tier Access' with a subtext: 'Including use of Amazon EC2, Amazon S3, and Amazon DynamoDB. Visit aws.amazon.com/free for full offer terms'. On the right, there's a white box containing the account creation form. The form has four input fields: 'Email address', 'Password', 'Confirm password', and 'AWS account name' (with a help icon). Below these fields is a yellow 'Continue' button. At the bottom of the form box, there's a link 'Sign in to an existing AWS account'. At the very bottom of the page, there's a small copyright notice: '© 2020 Amazon Web Services, Inc. or its affiliates. All rights reserved.' followed by links for 'Privacy Policy' and 'Terms of Use'.

Step 3: Select 'account type' as personal and give your contact details like country and Address

Contact Information

All fields are required.

Please select the account type and complete the fields below with your contact details.

Account type ⓘ

☐ Professional ☒ Personal

Full name

Anupama

Phone number

Country/Region

United States ▼

Address

Street, P.O. Box, Company Name, c/o

Apartment, suite, unit, building, floor, etc.

City

State / Province or region

Step 4: Provide debit/credit card details as below.

If you have selected country as India, AWS will debit 2 INR and credit you back to check if your card is supporting recursive feature. Try to give a newly issued credit/debit card. A validation SMS or call to your mobile will be initiated from AWS during this process.

Note: This process may change depending on the country you selected

Payment Information

We use your payment information to verify your identity and only for usage in excess of the [AWS Free Tier Limits](#). We will not charge you for usage below the AWS Free Tier Limits. For more information, see the [frequently asked questions](#).

As part of our card verification process we will charge INR 2 on your card when you click the "Secure Submit" button below. This will be refunded once your card has been validated. Your bank may take 3-5 business days to show the refund. Mastercard/Visa customers may be redirected to your bank website to authorize the charge.
